

MY CONDITIONS FOR THIS STRATEGY THAT'S.

Bullish Market.

1. THE MARKET MUST BE ABOVE THE **50 EMA**.
2. THREE TESTS OF A SUPPORT LEVEL, at that point if we are still above the **50 EMA** my conditions are met.
3. **MY ENTRY** reason is **A GREEN CANDLE** and the **conditions** of that **green candle** is that it must **close above the 50 ema**.

Here candles still touching the 50 EMA with **wicks or body** it's still valid.

But when we get a **candle** that does not touch the **50 EMA**, it's time to discount that trade and start looking for another trade.

Bearish Market example.

OUR ENTRY is a red candle.

Bearish candle must close below the **50 EMA**.
